

## ECONOMIC GROWTH

### The self evaluated market value of a human organism research in European countries 2011

<b>SUMMARY</b>
<p>The Equivalence and Growth Organization WEGO has chosen Mind Less Research International to carry out the Economic Growth -research in Europe. The organization is aiming to release a global scale of value to measure equivalence concerning human organisms. The definition is based on the WEGO standard (Global economic standard). Aim is to help the global community of economic growth to avoid any moral contradictions during all transaction.</p> <p>Quantitative research method is used to collect data for creating the scale. Human organisms are choosing their own value in the market meter. The value and the amount of choices are collected and analyzed.</p>
<p><b>Commissioner of research</b> World Equivalence and Growth Organisation W.E.G.O.</p>
<p><b>Action and results of the research provided by</b> Mind Less Research International</p>

<b>RESULTS</b>
<p>The revealing of the results of this research as a whole takes place in the year 2014 after all the material has been collected and analyzed. Therefore the final conclusion and the Global scale for measuring equivalence concerning human organisms will be published after all the data has been collected and analyzed around the world.</p>
<p>To preserve openness and ethics in research, we publish the latest data collected for the public to study.</p>
